Scientific Event on IT

Smart Cities: Recent Innovations and Challenges

Call for Papers

AMTIC and INPT's PhD students organize the first edition of the "**Scientific Event on Information Technology**" (SEIT). This event aims to bring together engineering students and researchers to discuss and exchange experimental and theoretical results, novel designs, works in progress, and experiences. SEIT will include a parallel presentation of papers along with prominent keynote speakers and a video competition.

Keynotes:

Aize-dine Bitar, Mobile platform verification architect, Intel Corporation.

Title : IoT for Smart Cities.

Abdeljaouad Benhaddou, Conseiller, LYDEC.

Title : Retour d'expérience de LYDEC dans le domaine des villes intelligentes.

Topics:

SEIT is soliciting contributions in, but not limited to, the following directions:

- Integrated Circuits and Embedded Systems
- Localization Systems, Intelligent Transport Systems
- Antennas, Optics, Microwaves and RFID Technologies
- Signal, Image, and Video Processing
- Wireless Mobile/Sensor Networks
- Big Data, Cloud Computing and Services
- Software Engineering, Game Theory, Mechanism Design, and Learning Algorithms
- Infrastructure Architectures, IT Security
- Internet of Things
- Smart Grid, Green Tech
- Intelligent Systems for Renewable Energies
- Applications, Deployments, Test-beds, and Experiences in Smart Cities
- E-Services
- Management of IT

Papers Submission :

Authors are invited to submit short papers of 2 pages max, in English, following the IEEE A4 template. Selected papers will be presented in oral sessions; works in early stages may be accepted as posters.

Important dates :

Submission Deadline: April 10 ~~April 10~~ **April 17 2016**

Video Submission Deadline: April 10 ~~April 10~~ **April 20 2016**

SEIT Event: April 28, 2016

Video Competition:

Creative students are encouraged to take part in the video competition organized in conjunction with the event. The goal of this competition is the vulgarization of recent innovations in Information Technology.

Participants are invited to submit a short video explaining a scientific concept. Videos should not exceed 180 seconds in MP4 format.

Three videos will be awarded and presented at the closing ceremony. All videos worth sharing will be added to the YouTube channel of the event.
